

Lab 6

Mapping ER Diagrams to Tables

Practice

Complete the ADBC2 - ER to Table animation [<http://adbc2.kennesaw.edu/>]

Submission

Use standard notation for representing tables. Underline primary keys and italicize foreign keys. For example:

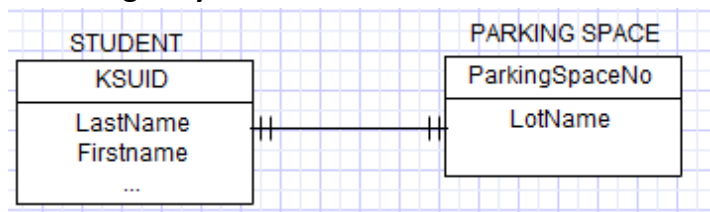

STUDENT (Stud_ID, Surname, Forename, Matriculated, College, E-mail, *Sup_ID*)

SUPERVISOR (Sup_ID, Surname, Forename, Address, E-mail, Telephone)

STUDENT_SUPERVISOR (*Stud_ID*, *Sup_ID*)

Submit as a Microsoft Word Document in Dropbox area of D2L labeled Lab 6 submission

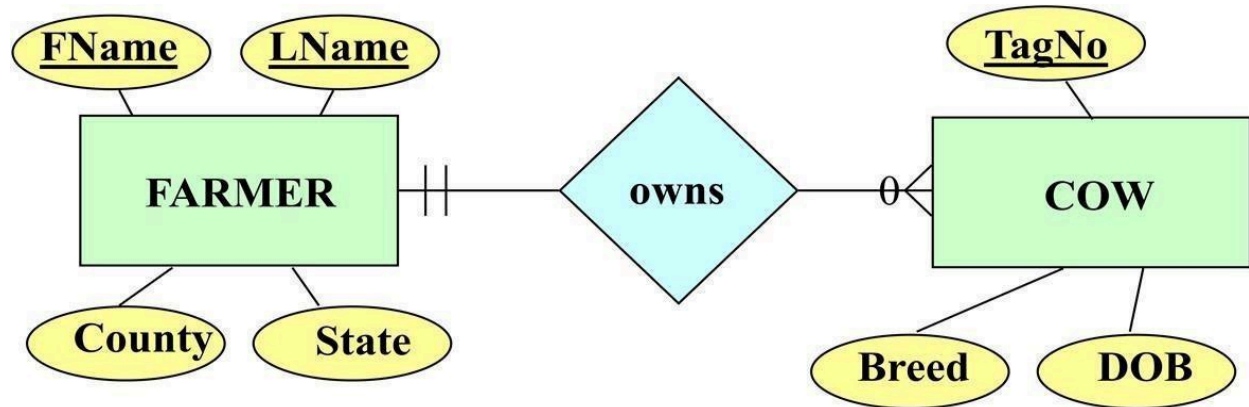

1. **Convert the ER Diagram below to a list of tables. Be sure to identify primary keys and foreign keys.**
